### 1. Project Background & Description

The University of South Florida is one of four institutions in the State University System of Florida (SUS) authorized to deliver a bachelor's degree program in CIP 51.1005, Clinical Laboratory Science/Medical Technology/Technologist<sup>1</sup>, also referred to as MLS programs. The other three SUS institutions are the University of Central Florida (UCF), University of West Florida (UWF), and Florida Gulf Coast University (FGCU). MLS programs prepare bachelors level graduates for positions in medical laboratory facilities to perform the testing that is necessary for detecting, diagnosing and treating of diseases, as well as for the monitoring and maintenance of patient health. Employers require that MLS practitioners hold national certification through the American Society for Clinical Pathology (ASCP)<sup>2</sup> and/or in some states, including the State of Florida, hold state licensure.<sup>3</sup> Certification and licensure eligibility require passing of an ASCP Board Certification Exam. Only individuals completing a National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)<sup>4</sup> accredited education program are eligible to sit for the ASCP

<sup>&</sup>lt;sup>1</sup> https://nces.ed.gov/ipeds/cipcode/cipdetail.aspx?v=55&cipid=88795

<sup>&</sup>lt;sup>2</sup> https://www.ascp.org/content/docs/default-source/boc-pdfs/exam-content-outlines/ascp-boc-us-procedures-book-web.pdf

<sup>&</sup>lt;sup>3</sup> https://floridasclinicallabs.gov/

<sup>&</sup>lt;sup>4</sup> https://www.naacls.org/getattachment/b58c2104-4020-4c22-b597-0c8e44cec867/NAACLS-Guide-to-Accreditation-and-Approval-Edited.aspx

Board Certification Exam. While UCF, UWF and FGCU are NACCLS accredited, USF's current bachelors' degree program is not. Rather, students at USF complete three years on campus in didactic coursework that prepares them for application to a NACCLS accredited hospital-based 1-year education program. Historically, USF students apply to one of three NACCLS accredited hospital-based programs to complete their training: Tampa General Hospital in Tampa, Bayfront Hospital in St. Petersburg or St. Vincent's Hospital in Jacksonville. Acceptance into these programs is competitive, and limits the number of students who graduate from USF with an MLS bachelor's degree to an average of only 7-9 per year as shown in Table 1.

Table 1. Completion Data in CIP 52.1005									
	2019-2020 2018-2019 2017-2018 2016-2017 2015-2016 2014-2015 Grand Total								
	9	7	7	6	8	7	44		

While historical enrollment data for the MLS program shown in Table 2 varies per year, clearly indicate a reasonable demand for the program, the majority of students are unable to complete the program due to limited positions in the 1-year hospital based education programs as described above.

Table 2. Enrollment Data in CIP 51.1005								
2019-2020 2018-2019   2017-2018   2016-2017   2015-2016   2014-2015   Gra

### 2. Project Scope

The current MLS program at USF, the Bachelor of Science (BS) in Medical Technology, is offered through the Department of Chemistry in the College of Arts and Sciences (CAS) on the Tampa campus. In addition to seeking NACCLS' accreditation, USF is exploring housing the BS Medical Technology program on the St. Petersburg campus. The St. Petersburg campus provides close proximity to two of the NACCLS accredited hospital-based programs with whom we have traditionally partnered for MLS education, Tampa General Hospital and Bayfront Hospital; as well as to other potential partners, including but not limited to BayCare and Johns Hopkins. All Children's. The introduction of this program on the St. Petersburg campus will support the growth of new programs at this branch campus. USF would seek NACCLS accreditation within next two years. This document makes the case that investments in a NACCLS-accredited MLS program to be housed on USF's St. Petersburg campus will provide adequate returns in a reasonable period of time and outlines the total investments required to start (non-recurring) and maintain (recurring) an accredited BS MLS program.

### 3. Demand Analysis

Jobs requiring an MLS Bachelor's Degree are expected to grow over the next decade. Nationally, the U.S. Bureau of Labor Statistics<sup>5</sup> predicts that openings for MLS professionals (both technicians requiring a two year degree and technologists requiring a four-year degree) will increase by 11 percent between 2018 and 2028. Burning Glass confirms this upward trend, projecting that jobs requiring an MLS BS degree are expected to grow over the next decade, by 20.7 percent nationally and by 25.5 percent in the Tampa Bay region, while remaining steady at the state level.<sup>6</sup> During the last 12 months (March 2019 to March 2020), 431 jobs matching the MLS/MLT criteria were posted in the state of Florida and 88 jobs were posted regionally in the Tampa/St. Petersburg/Clearwater region.<sup>7</sup> According to Burning Glass, the average salary for this field is approximately \$72,000 both nationally and regionally, which is above the average national and regional living wage.<sup>8</sup>

While demand for MLS BS graduates in the state is projected to remain fairly steady, students graduating are not sufficient to fulfill current demand. Recently Tampa Bay Works<sup>9</sup> through its Healthcare Collaborative identified a regional need to fill approximately 600 medical laboratory scientist positions that will become available over the next six years. Part of its strategy is to increase the talent pipeline which includes significantly increasing the throughput of medical laboratory scientists from USF's program. A key component to increasing throughput is for USF to seek NACCLS accreditation for its program.

### 4. Resources Needed

- NAACLS Accreditation
- Annual Maintenance and Staff Budget
- Staff: 2 FTE faculty positions, with one designated as Program Director / Program
  Assistant
- Lab equipment (see itemized list)
- 1,500 sq ft of lab space

### 5. Challenges

 One of the biggest challenges USF faces with moving forward in seeking NACCLS' accreditation for its MLS hospitals will be availability of clinical rotations. In response to needs expressed previously for MLS personnel, Hillsborough Community College (HCC) began a post-bachelors' program,<sup>10</sup> and thus there is competition for potentially limited

<sup>&</sup>lt;sup>5</sup> https://www.bls.gov/ooh/healthcare/clinical-laboratory-technologists-and-technicians.htm#tab-6

<sup>&</sup>lt;sup>6</sup> See Addendum III

<sup>&</sup>lt;sup>7</sup> See Addendum III

<sup>&</sup>lt;sup>8</sup> See Addendum III

<sup>9</sup> http://tampabayworks.org/

 $<sup>^{10}\, \</sup>underline{\text{https://www.hccfl.edu/academics/subjects/health-and-medical/medical-laboratory-science-atc/medical-laboratory-science-atc}$ 

- clinical rotation placements. The Tampa Bay Works' Healthcare Collaborative is aware of the need to foster collaboration across the USF and HCC programs to optimize clinical rotation opportunities, fostering collaboration rather than competition.
- Another challenge is USF's lack of faculty with MLS credentials. Prior to submission of an initial application to NACCLS, a faculty member with MLS credentials will need to be hired and identified as the Program Director.
- A third challenge is the cost of accrediting the program and building out the required resources, i.e. hiring adequate faculty, creating lab space, and purchasing equipment. Additionally, the costs associated with purchasing and maintenance of technical equipment will be difficult to cover, in the short-term, through student tuition and fees alone.

### 6. Assumptions

- There is workforce demand to support USF graduating a minimum of 30 students per year.
- USF cannot generate sufficient revenue to self-sustain the proposed new delivery model and would need: (a) new support from the State; (b) direct support from business & industry, (c) philanthropic support; and/or (d) a redeployment of existing University/campus resources.
- USF would cooperate with other state universities, such as UCF, and Florida State Colleges, such as Hillsborough Community College, so programs were complementary and mutually supportive.
- The regional business community would assist with advisory board members, funds for startup and recurring programming, scholarships for MLS students (naming opportunities); lab buildout (naming opportunity) and equipment; clinical rotations; partnering to develop innovative education delivery models; and guaranteed employment at competitive salaries.

### 7. Implementation Timeline

### March – April 2020

• Discovery period.

### May 2020

USF presents business plan to Tampa Bay Works.

### May - August 2020

Funding identified for program launch.

### September 2020

• Hire program director.

### October 2020

- USF President submits letter to NAACLS of initial application request.
- Program Director begins development of detailed timeline for first graduates of the new curriculum, with dependencies for: (a) curriculum revisions (need credentialed MSL faculty); (b) laboratory buildout, equipment purchases; and (c) clinical affiliations

### November 2020

- Program Director submits initial application form and fee.
- Program Director submits Program Official Approval form along with required documentation requesting approval as Program Director.
- Begin recruitment of FTICs for St. Petersburg campus for Fall 2021 cohort for program.
- Internal communication to students re: program move to St. Petersburg campus for students who will be at junior level in Fall 2021.
- Faculty search for Fall 2021 begins.

### January 2021

 Program Official Approval Form approval received from NAACLS encouraging USF to proceed with Preliminary Report submission (submit ~ 1 year before first class graduates).

### **Spring 2021**

- Lab buildout and equipment purchasing begins.
- Curriculum revisions made and approved at all levels.
- MOUs completed with clinical laboratory sites.
- Faculty search completed.
- Staff search initiated.
- Update State College partners and develop FUSE pathways.

### May 2021

Preliminary Report with required documentation submitted to NAACLS

### July 2021

• Preliminary Report approved by NACCLS (typically occurs within 2 months of receipt of preliminary report), with encouragement to submit the self-study.

### August 2021

- Lab buildout and equipment purchasing complete.
- New faculty member hired.
- Begin junior year program at USF St. Petersburg Campus (with Preliminary Report approved we are to begin the first class in the program)
- FTICs begin in program
- Sophomores start second year coursework in program.
- Last year for Tampa-based program students to start 1-year hospital based programs.

### November 2021

- Program Director submits self-study to NAACLS, with application fees.
- NAACLS grants "serious applicant status" and evaluates self-study (automatically awarded after self-study submitted along with application fees)

### January - February 2022

Self-study review occurs and results submitted to program.

### February – March 2022

Response to self-study submitted to NACCLS by Program Director.

### **April – May 2022**

NAACLS conducts site visit.

### May-June 2022

• Site visit report received by USF (within 1.5 months following site visit)

### May-July 2022

• Submit response to site visit within 1-month of receipt of report.

### August 2022

- First Senior class begins new 4<sup>th</sup> year curriculum
- Junior level class begin (including AA transfers)
- Sophomores begin
- New FTIC cohort begins

### May 2023

• First graduates of NAACLS accredited USF programs graduate

### 8. Draft Budget for the MLS BS Start Up

MLS 4866 Clinical Laboratory Management and Education	<u>1</u> 6
Semester Hours:	0

### Addendum III. Clinical Laboratory Science/ Medical Technology/ Technologist Employment Demand Analysis

Burning Glass Report, April 2020

### **Project Criteria**

Validate	Programs
Location	Nationwide, State and Regional Data
Degree Level	Bachelor's degree
Time Period	4/1/2019 – 3/31/2020
Selected Programs	Clinical Laboratory Science/Medical Technology/Technologist (51.1005)
Career Outcomes mapped to Selected Programs of Study	Laboratory Manager

### How many jobs are there for your graduates?

**Nationwide**: For your project criteria, there were 8,169 job postings Nationwide in the last 12 months.

Compared to:

- 37,330,999 total job postings in your selected location
- 13,055,485 total job postings requesting a Bachelor's degree in your selected location. The number of jobs is expected to grow over the next 10 years.

**Statewide:** For your project criteria, there were 431 job postings in Florida in the last 12 months.

Compared to:

- 2,148,049 total job postings in your selected location
- 684,997 total job postings requesting a Bachelor's degree in your selected location The number of jobs is expected to stay the same over the next 10 years.

**Regionally:** For your project criteria, there were 88 job postings in the Tampa/St. Petersburg and Clearwater Region in the last 12 months.

Compared to:

- 432,420 total job postings in your selected location
- 151,380 total job postings requesting a Bachelor's degree in your selected location. The number of jobs is expected to grow over the next 10 years.

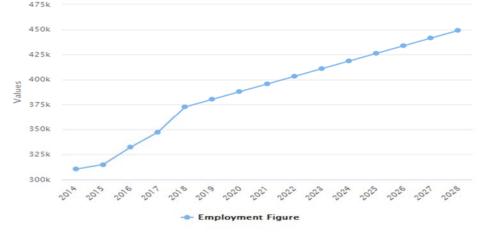

### 1. Growth by Geography

Geography	Selected	Total Labor	Relative Growth
Geography	Occupations	Market	Relative Glowth
Tampa, FL	25.69 %	12.83 %	High
Florida	NA	13.15 %	NA

Nationwide	20.50 %	5.78 %	High
			6

### 2. How has Employment Changed for Career Outcomes of your Program?

Nationwide Data	2014	2015	2016	2017	2018	2028
Employment (BLS)	310,320	314,950	332,150	346,980	372,670	449,067
Florida Data	2014	2015	2016	2017	2018	2028
Employment (BLS)	321,510	326,810	344,280	361,420	372,670	449,067
Tampa/St. Petersburg/ Clearwater Data	2014	2015	2016	2017	2018	2028
Employment (BLS)	2,000	2,110	2,050	2,640	3,060	3,846

<sup>\*</sup>Nationwide employment data between years 2019 and 2028 are projected figures.

### 3. Details by Occupation

Occupation Group	Postings	LQ	Employment (2018)	Employment Growth (2017 - 2018)	Projected Employmen t Growth (2019-2028)
Nationwide Data					
Clinical Research	8,169	NA	372,670	7.4%	20.5%
Florida Data					
Clinical Research	431	0.9	NA	NA	NA
Tampa/St. Petersburg/					
<b>Clearwater Data</b>					
Clinical Research	88	1.3	3,060	15.9%	25.7%

How Versatile is my Program?

Graduates of this program usually transition into any of the 1 different occupation groups:

Occupations Group	Market Size (postings)	Percentage of Career Outcome demand		
Clinical Research	8,169	100.0%		
Florida Data				
Clinical Research	431	100.0%		
Tampa/St. Petersburg/				
Clearwater Data				
Clinical Research	88	100.0%		

### What salary will my graduates make?

The average salary in the nation for graduates of your program is \$72,479

This average salary is Above the average living wage for your region of 31450

The average salary in Florida for graduates of your program is \$70,517

This average salary is Above the average living wage for Florida of 29619

The average salary in Tampa-St. Petersburg-Clearwater, FL for graduates of your program is \$72,415

This average salary is Above the average living wage for Tampa-St. Petersburg-Clearwater, FL of 29141

Salary numbers are based on Burning Glass models that consider advertised job posting salary, BLS data, and other proprietary and public sources of information.

Occupation Group	0-2 Years	3-5 Years	6+ Years
Clinical Research	\$60925	\$74092	\$81949

### Where is the Demand?

### 4. Top Locations by Posting Demand

Location	Postings
California	1,507
Texas	778
Florida	431
Massachusetts	342
New York	334
Ohio	304
